

Mootez Ben Slimen

Master's Student in Cybersecurity & Software Engineer

Ariana — +216 29 704 881 — mootez.benslimen@medtech.tn

blog.3angour.tech — LinkedIn — GitHub — GitLab

Summary

Master's student in Cybersecurity with a background in software engineering, AI automation, and offensive security. Excellence Scholarship recipient at MedTech University. Experienced building RAG pipelines and AI-driven automation, and organizing cybersecurity events.

Experience

AnTitech, AI Offensive Security Intern

Jul 2026 – Present

- Building an observer system that gathers data to help autonomous **AI red-teaming agents** discover new jailbreak, prompt-injection, and data-poisoning techniques against target LLMs/chatbots

Mazars Forvis, OSINT Automation Intern

Jun 2026

- Built an OSINT automation platform and data pipelines to collect, normalize, and correlate open-source intelligence for security assessments

ITC-Consulting, Graduation Internship

Feb 2025 – May 2025

- Designed a Vulnerability Operation Center (VOC) with DNS traffic monitoring to detect anomalies; built Python scanners and automated CVE aggregation, alerting, and monthly reporting

Education

MedTech University, Tunis

Sep 2025 – Present

Master's Degree in Cybersecurity (*Excellence Scholarship, 75%*)

University of Zurich (UZH), Switzerland

2026

Deep Dive into Blockchain (DDiB) Summer School (*Full Scholarship*)

Higher Institute of Computer Science, Ariana

2022 – 2025

Bachelor's Degree in Software Engineering and Information Systems

Research & Publications

AI-Driven Threat Knowledge Platform Inspired by MITRE ATT&CK Using Dark Web Intelligence

2026

- Accepted at **IEEE WETICE 2026**, Paris; proposes an AI platform aggregating Dark Web intel and mapping threat actors/techniques to MITRE ATT&CK

Projects

Forgot me?: Local-First Personal Cognitive Assistant

GitHub

2026

AIMinds Hackathon

- Built a self-verifying **RAG pipeline** (cosine-similarity retrieval + LLM validation pass) over a local LLM (Qwen2.5-3B via Ollama) indexing documents, images, audio, and calendars, fully on-device
- Stack:** FastAPI · ChromaDB · Ollama · Whisper · BLIP · React Native · Docker Compose

CapAI: Founder Intelligence Platform

GitHub

2026

Hackathon Project

- Built an async multi-source **agentic aggregation engine** (FastAPI, aiohttp) unifying founder data via API-based identity resolution; predicted acquisition/IPO outcomes with 0.84 ROC-AUC (LightGBM, 196K companies)

OceanClean: Blockchain Ocean Cleanup Marketplace

GitHub

2026

UZH DDiB Summer School

- Built a blockchain marketplace paying verified collectors in OCT tokens, with a tamper-resistant payout model weighted by material value and retrieval difficulty

Secure Web App (OWASP Top 10) & CTF Challenge Author / Blog

2023 – Present

- Built a Flask/SQLite3 app implementing OWASP Top 10 flaws, applying SSDLC to fix them; authored Web/Forensics/MISC CTF challenges and CTF write-ups on a personal blog

Volunteering & Leadership

- SecuriCON, Core Organizer & Technical Lead:** Co-organized a 240+ participant event with sponsors Hack The Box & Altered Security; supervised IoT Hacking, AD, and Attack & Defense tracks
- Securinets SMU, Technical Leader (2025–2026):** Defined technical roadmap; mentored members in exploitation, forensics, and scripting
- Securinets ISI, Team Leader (2023) & Cr4ck0ut CTF Organizer:** Mentored 20+ students, authored CTF challenges, deployed CTFd infrastructure, and delivered 4+ cybersecurity workshops

Skills

- AI & Automation:** RAG pipelines, LLM integration (Ollama, local & API), agentic workflow design, Python automation
- Programming:** Python (Advanced), C, Java, JavaScript, PHP, Bash, SQL
- Cybersecurity:** Web Security, OWASP Top 10, SSDLC, Pentesting, OSINT, Network Analysis, Blockchain
- Tools:** Docker, Git, PostgreSQL, MySQL, FastAPI, Next.js, React.js
- Languages:** Arabic (Native), French (Fluent), English (Professional)

Awards

CSAW CTF 2024: 4th MENA Quals • CSAW CTF 2023: 4th Quals • CyberMaze V3: 1st Place • CyberMaze V4: 2nd Place • KernelKombat: 1st Place • GISAMM: 2nd Place
